PRESS RELEASE

AKKO Invest closes first half with nearly 19% revenue growth and returns to profit

Budapest, September 16, 2026 – AKKO Invest increased its revenue by 19% to HUF 23 billion in the first half of 2026, while achieving a profit of more than HUF 400 million after a loss in the same period last year. The company, listed on the Prime Market of the Budapest Stock Exchange, presented its renewed strategy this summer, under which it aims to become one of Hungary’s leading integrated real estate services groups.

AKKO Invest Nyrt. increased its revenue to HUF 22.8 billion in the first half of 2026, 19% higher than in the same period last year, while its net profit amounted to HUF 422 million in the first six months of this year, compared to a loss a year earlier. EBITDA, reflecting operating performance, amounted to HUF 1.5 billion in the first half, which means a 5.5% increase year-on-year. Performance was primarily supported by the growth and results of AKKO’s largest subsidiary, NEO Property Services Zrt., a key player in the Hungarian real estate services market. The first-half results are in line with AKKO Invest’s renewed strategy presented this summer, which aims to make the company one of Hungary’s leading integrated real estate services groups, building on the capital strength of the Wallis Group, the professional expertise of the WING Group, and the stable market position of NEO Property Services. The company plans to achieve a group-level revenue of more than HUF 100 billion within five years and strengthen its profitability. The expansion will focus on strengthening capabilities in general design, BIM-based project preparation, engineering project management, general contracting, energy and innovative technology services through organic development and targeted acquisitions. In September, AKKO announced an acquisition in line with its strategy after reaching an agreement to purchase Aspectus Architect Zrt., a dynamically growing company in the field of general design. Aspectus generated a revenue of nearly HUF 600 million and EBITDA of nearly HUF 60 million in 2025. The architectural firm expects significant growth in both revenue and earnings as early as 2026 and plans to continue its dynamic development in the coming years. This expansion is supported by Aspectus’s stable professional background and capital strength, its track record of successfully completed projects, as well as its close relationship and cooperation with NEO Property Services’ general contracting business unit.

AKKO Invest Nyrt.

AKKO Invest Nyrt., listed on the Prime Market of the Budapest Stock Exchange, is engaged in asset management, and its shares are traded on the Prime Market of the Budapest Stock Exchange. Its largest subsidiary is NEO Property Services Zrt., established in 1999. AKKO Invest aims to become one of Hungary’s leading integrated real estate services groups by building on the financial strength of the Wallis Group, the professional background of the WING Group and the stable market position of NEO Property Services. AKKO Invest’s principal shareholder is Mevinvest Kft., a member of the WING Group and a wholly owned subsidiary of Wingholding Zrt.
